

9/23/13

MR Bob Milliken  
Director  
Seacoast Energy Solutions  
P O Box 448  
Newcastle, ME 04553

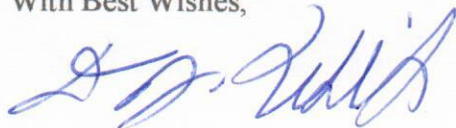

Dear MR Milliken,

This letter's purpose is to call your attention to the excellent work of Adam and John on the Mondabaugh-Uhlik home in Rockport during the weeks of 9/16 and /23.

Rarely have we encountered two men of such quality. Their expertise, friendliness, efficiency, and hard work could serve as a model for service – installation personnel across the state. The work assigned: removal of an extant cooling system installed after home construction and installation of a modern cooling – heat pump system was difficult. However, it was expertly finished in much less time than I anticipated. And these two men were not satisfied until the units were thoroughly tested, the environs completely cleaned, and we were taught how to use the system.

You are fortunate to have associates like Adam and John on your team.

With Best Wishes,

David J Uhlik, PhD
